Post to anti DOD/URM/Spokane Inc. site and follow up with why housing cannot resolve a complicated situation originating with systemic bias against Italian born citizens in DOD, URM and City Spokane, Inc. involving international law and national law violations since prior to 1963, these are beyond the competence of HUD (Housing and Urban Development) and the **VA (Veterans Administration)**

us army/navy medical documentation against dad with diagnosed psychiatric problems in January 1975, dad refused to follow the prescription to see a psychiatrist for the safety of his family, whom he seemed completely disassociated from, his only family interaction was a survivalist attitude teaching us survival skills against anti Vietnam war civilians who were a harassing and unappreciative against service members returned from Vietnam, and around hunting and fishing, otherwise no interaction with his wife or daughters after Vietnam, displaying symptoms of fear associated with the similarity of Italian Mediterranean and enemy Viet-Kong phenotypes such as darker eyes, hair and olive coloured skin, dad even threatened in a perverse way his wife, my Mother, in 1980 circa, after she had a full hysterectomy in 1979, that "I'll eat your daughter" perhaps referring to occult military practices in Vietnam, and later in Iraq, of cannibalizing women's ovarian eggs and organs, as a sexual stimulant and hormonal based energy drive. They happily divorced in 1988, though dad, manipulative and psychologically abusive, insisted for Mom not to contest the divorce and had the documents written up, in Spokane, Washington, for tax purposes and for threatening Mom with economic hardship since 1988, so that dad's paycheck from the Department of Defence was entirely issued to him monthly, and then he writes a personal check of 50% of his monthly income to Mom. This is so that DOD is not fully recognizing the divorce, which since 1988 should have two separate paychecks issued, one to Colonel (retired) Henry Julius Stein, Jr., born in 1928, and a separate paycheck to Mom, Gigliola Addini-Stein, dual U.S. and Italian citizen, born in 1929.

DFAS-CL FORM 10 (REV 12-01)					

Thus, due to the Spokane, WA Courthouse failure to properly register the financial disclosure to the Department of Defense, since 1988, no legal recourse on my or my Mother's part protecting me in Spokane City, or Eastern Washington, has not been respected, especially regarding my ADA status since 1974 – see Juvenile Rheumaty diagnosis and medical statement of dad disassociating himself as if fearing my physical handicap as part of his evolved prejudice, including cannibalism, after Vietnam:

the mental absences of rita in military dod file so that perjury from them is purged from active files

Dad was sexually abusive towards my sister, fourteen years older, and physically violent towards Mom, locking her out of the house on Lindeke to sleep in the dog's kennel while he was in ROTC, bullying her physically and psychologically, and the behaviour worsened drastically after Dad returned from Vietnam seeming not to distinguish between Mom and My darker Mediterranean features and those of Viet-Kong. He'd refer to me as his 'dog' threatening to hit me, and he did hit my nose snapping his middle finger against my nose, to distance me like he'd discipline one of his English Setters in Virginia, beginning at age 9, and afterwards. Dad was masterful in abusing without leaving any physical traces to connect him to the abuse. After decades of faithful marriage as an 'asset' Roman Catholic on Mom's part,

stoically tolerating abuse and repeated infidelity by Dad, including his having a son in Texas with a woman he solicited around 1979-1980 while stateside and being evaluated by the Veteran's Administration for retirement medical status, Dad finally divorced Mom in 1988.

(insert General's 1956 statement of Mom as an 'asset' to Dad's career)

Upto a TRA. being used - no joint seen. No pain - New off RT & doing. No physical - She is doing A.A. 2-1-2-1. Of relevance is the fact that Enigma is doing a quiet good-looking child - who asked, "are you happy?", she replies - "I wouldn't say that". I talking to Mother. I find a real deal of family, funeral - father does little & family - likes to be by himself or feel a person - Much depression present. We bring father in, when she comes out.

all this seemed held against me as if the feds intended to frame me a terrorist/un-American to set up audio that led to 9-11 (dad used Army signal corps sign to indicate this to me in 2010 so I could understand feds were illegally audio spying on me since 1996 abusing a German surgeon shoulder prosthetic implant) my primary surgeon medical doctor since 1993 being German yet from Iran, which for some reason US authorities were prejudiced against in respect for his role in demanding physical

accommodation in compliance with the Americans with Disabilities Act since 1993 and prior since 1974 as per Department of Defence documentation certified by Dr. Morin, of Newport News hospital, Virginia when I could only walk with crutches and of course dad was never quite “there” nor my brother who ‘shook hands’ with dad, nor sister, both of whom were sexually abused by my dad. Dad, I was informed by one of his female employees at his assignment U.S. Army Europe Materiale Comptroller office in Kreuzberg Kaserne, U.S. Army camp, in Zweibrucken, Rhineland-Palatinate, Germany (1977-1979), routinely lied when cheating on his wife, my Mother, telling his office members that he was out with his ‘daughter’ when instead he was with another woman, and habitually unfaithful in the marriage, that ended in 1988. Dad threatened my Mother, and call her an “Italian restaurant”, particularly after we were assigned to Kreuzberg Kaserne, Zweibrucken, Germany, where we were assigned a small second floor (U.S.) or first floor European, apartment with only one bathroom, very degrading for a full colonel. An “Italian restaurant” was at the front entrance of the housing area that did not serve authentic Italian food and was known as a ‘meeting for cheating’ on marriage area. My Mother made certain I had private lessons and learned tennis, played classical piano, and studied French, classical Latin, Italian and German, integrating with local Germans and NATO dignitaries, to make certain I had a better classical European education than my ‘peers’, she could protect me because I was born in Italy and raised, mostly, by her and her parents in Italy, my Italian grandparents, against systemic DOD/Spokane Inc. abuse. What maybe saved me from sexual abuse is the disease I had, and still am prone to occasional flare-ups, the poly-rheumaty arthritis.

Add about Col. And Mrs. Calvert and the harassment at ZHS from Protestant and O6 children in the vicious scheming to get their dads promoted when Dad pioneered in '71-76 the Apache helicopter first operational for special operations in 1974 though not brought into full mass production until 1982. It is the most successful military attack helicopter in world history.
